

Middleware

The power of Juice Set-Top Box

Thanks to the architecture (MW is coded on low level and sits permanently in set-top box) it is incredibly fast, even complicated screens like **MultiEPG** appear on the screen immediately. Juice Middleware solution is suitable for wide range of service operators. Customization for your network is available using our experienced SW development team. Antik Technology offers built-in middleware client for free inside each Juice IPTV STB.

Basic menu
